Address	Av. Eng. Duarte Pacheco – Amoreiras, Torre 2, 6º Piso, Sala 4, 1070-102 Lisboa, Portugal
Telephone	+351 21 380 20 40
Fax number	+351 21 380 20 49
E-mail	geral@ecolub.pt
Internet address	http://www.ecolub.pt
Type of contracting entity	Company incorporated under the terms of Decree-Law No. 153/2003, of July 11 th , with limited liability
Main activity	Management of the Portuguese national network for used oils collection, storage and recovery.

Section 2 – Object

Title	Sale, consigned to recycling and recovery , of used oils generated in Portugal during the second quarter of 2012
Type of contract	Contract of sale of used mineral oils
Short description of the contract	<p>The contract involves the ex works sale of quantities of pre-treated used oils from waste oil lubricants collected in Portugal, by SOGILUB, during the second quarter of 2012.</p> <p>The approximate total amount of pre-treated used oils for the period April / June 2012 is three thousand (3,000) tonnes, which will be divided into six batches of five hundred (500) tonnes, each batch to be subject to a price offer under the conditions of this consultation.</p>

CONSULTATION FOR FINAL DESTINATION

	<p>SOGILUB intends to sell each batch for recycling and/or recovery¹, from licensed storage facilities in Portugal, to the buyer's facilities licensed for this type of oil management. The price offer could take in account the load place.</p> <p>Bids must be made by batch and price per tonne (€ / ton) (see Section 4 - Conditions). The bidder shall consider, in the price offer, administrative procedures as well as transportation from the storage facilities, where the pre-treated oil is located, to its installations.</p>
Batches	<p>The amounts of used oils subject to this query are composed of oils with the required parameters that qualify them as being suitable for recycling and/or recovery. There will be six batches of five hundred (500) tonnes each (Batch 1 through Batch 6), of pre-treated used oils for recycling and/or recovery. The pre-treated used oils will be available for collection among the licensed storage facilities in mainland Portugal.</p>
Renewals	<p>The present Consultation is issued for the period of April until June 2012.</p>
Duration of the contract	<p>3 months (April 2012 – June 2012)</p>

Section 3 – Technical specifications

Background	<p>SOGILUB is the management company, licensed by Joint Order No. 662/2005 of September 6th, 2005, by the Ministries of Environment, Spatial Planning and Regional Development and the Economy and Innovation, extended by order No. 4364/2011 of March 10th, 2011 the Ministries of Economy, Innovation and Development and the Environment and Spatial Planning, responsible for managing the collection, transport, storage and recovery of waste oils. These oils are collected from garages, auto repair shops and industrial plants, are transported to storage facilities and finally sent for regeneration, recycling and/or recovery.</p>
Type and quality of materials	<p>SOGILUB manages approximately 30,000 tons of used lubricant oil annually. They are divided typically into two types, depending on its regeneration ability.</p>
Used oils storage ex	<p>The buyers must collect the pre-treated used oils in accordance to their weekly availability, as indicated by Sogilub. In this context, the buyers must also collect the pre-treated used oils at the licensed storage facilities indicated by SOGILUB in the</p>

¹ SOGILUB is entitled to assign quantities of pretreated waste oils for regeneration and / or recovery so as to meet the management objectives set forth in subparagraphs b) and c) of paragraph 2 of Article 4 of Decree-Law No. 153 / 2003 – legal regime associated to the management of new and used oils, as amended by Law-Decree No. 73/2011 – legal regime associated to waste management

works sites

programming of each supply. The storage facilities can be found at:

- SISAV – Rua Cabeço do Seixo, Eco Parque do Relvão, 2140-671 Carregueira, Santarém district (access by road);
- CARMONA, S.A. – Monte dos Bijagós, Jardia, 2925-201 Brejos de Azeitão, Setúbal district (access by road);
- CORREIA & CORREIA, LDA – Zona Industrial, Lote 45, 6100-711 Sertão, Castelo Branco district (access by road);

Section 4 – Conditions

Conditions for participation All applicants must fulfil the legal qualifications and comply with the requirements of the state or country where its facilities are located.

All applicants must submit an application form duly completed, and the required documentation attached (see Section 5 - Procedure).

False or inaccurate statements made by the applicants shall be grounds for exclusion of the candidate from this consultation, and he may be held liable for any damages arising therefrom to SOGILUB.

SOGILUB reserves the right to audit the technical facilities of the applicant, in what concerns the activities affected to the acquired pre-treated used oils.

Responsibility of contracting entity SOGILUB will select, according to the proposals, buyers for the batches as defined in this Consultation.

SOGILUB, according to the delivery schedule to be agreed with the buyer, will ensure the availability of pre-treated used oils to be delivered from the storage facilities defined for each delivery.

SOGILUB guarantees, a priori, that the batches of pre-treated used oils are suitable for recycling and/or recovery applications, according to the average parameters observed in Table 4 of the Annex to the License² of this management entity.

SOGILUB is available to assist in the notification process associated with the transfer of waste oils, in the case of export.

As notifier, SOGILUB complies with Regulation (EC) No. 1013/2006 of the European Parliament and the Council of 14 June 2006 on transboundary movements of waste and / or ensures compliance with the provisions of specific legislation on the transport

² This information, in English and Portuguese, can be obtained by contacting SOGILUB.

CONSULTATION FOR FINAL DESTINATION

of used oils in the country (Portugal).

The evaluation of proposals and the final decision on the conclusion of the purchase and sale of pre-treated used oils for recycling and/or recovery lies exclusively with Sogilub and will be communicated in writing to each bidder.

Responsibility of the buyers The buyer is obliged to comply with safety rules at the storage facilities where the oil is loaded and is responsible for providing the technical means necessary to the transport of pre-treated used oils from the storage sites (to be nominated by SOGILUB) to their facilities.

According to the SOGILUB information, buyers will collect the used oils from one of the licensed storage facilities listed for this purpose.

The buyer cannot refuse to collect the pre-treated used oil from the storage facilities to be indicated by SOGILUB.

The buyer should ensure compliance with Regulation (EC) No. 1013/2006 of the European Parliament and the Council of 14 June 2006 on transboundary movements of waste, if applicable, and / or ensure compliance with the provisions of specific legislation on the transport of used oils in the country (Portugal).

The buyer must submit documental evidence that the pre-treated used oil acquired through this consultation was effectively recycled and/or recovered.

Price offer The following conditions apply to the submission of price offers, under the conditions described in this query:

- Price offers must be quoted individually for each batch of 500 tonnes;
- Price offers must be quoted in Euros per tonne (€/ton);
- Price offers are made in fixed prices;
- Two forms of price offer are accepted:
 - Single price offer per lot, ex-works, regardless of the storage facility location;
 - Price offer per lot, ex-works, according to the storage facility location;
- VAT and PPT taxes should be included with the price offer, when legally applicable.

Deposits and guarantees With the signing of the contract, the purchasing companies shall pay 10% of the total selling price, as a security deposit, based on the fixed price offer, plus VAT or other

CONSULTATION FOR FINAL DESTINATION

required	<p>taxes, if applicable.</p> <p>The above value will be progressively deducted on each payment, taking in account the volumes supplied, with the relevant adjustments to be made in the last month of payments.</p>
Payment arrangements	<p>Every 15 days (starting from the beginning of the month) or on the business day immediately following, SOGILUB issues the invoices corresponding to the waste oil delivered made to the purchasers in that respective period (two weeks).</p> <p>Invoices issued by SOGILUB must be paid within 30 days from the date of issue.</p>

Section 5 – Procedure

Date for submission	Proposals must be submitted between the date of publication of this Consultation and 5pm on March 19 th , 2012.
Means for submission	<p>Submission of proposals can be made by hand, mail or fax (see address and contact details listed in Section 1 of this consultation), and the proposal should be in the offices of SOGILUB until 5pm on March 19th, 2012.</p> <p>Alternatively, applicants may also submit their proposals via electronic mail to the address geral@ecolub.pt, sent until 5pm on March 19th, 2012. The “Subject” field should contain the following reference: “Consultation for Final Destination EN: Used Oils SOGILUB 2012-2T REC [insert name of applicant]”</p>
Type of procedure	Open, international
Information to be included in the proposal	<p>Each applicant must fill out the proposal (specimen attached), which requires the following information:</p> <ul style="list-style-type: none"> • Statement of proposed price; • Legal identification of the company, including name, address, telephone and fax number, person responsible for the proposal, e-mail (general and the person responsible for the proposal); • Price offer, according to the instructions given in Section 4; • Legal documentation and other ancillary documents relating to certification (e.g. quality, environmental) of the activity; • Conditions of admissibility of used oil to the facilities of the applicant;

CONSULTATION FOR FINAL DESTINATION

	<ul style="list-style-type: none"> • Technical information about the recycling and/or recovery activities to be developed by the applicants; • Certificate signed by the person responsible for the proposal and the technical director of the facility, attesting to the veracity of the information presented in the proposal.
Criteria for contracting	<p>Contracting criteria considers the most commercially advantageous offer. If there are similar proposals, the presentation of qualifications that demonstrate added value associated with the technical and environmental activities of the candidate will be considered (e.g. quality certifications, environmental principle of proximity, etc).</p> <p>Sogilub's contracting decision will always be conditioned to the guarantee of achievement of the goals foreseen in point 2 of article 4 of Decree-Law No 153/2003, concerning the legal regime to which the management of both new and waste oils will be subject, in its version amended by Decree-Law No. 73/2011 which regulates the general regime for waste management (regeneration - minimum 50%; regeneration plus recycling - minimum 75%; energy recovery - up to a maximum of 25%).</p>
Period of validity of the proposal	The period of validity of the proposal is 4 months from date of submission.
Results	<p>The decision is the sole responsibility of SOGILUB.</p> <p>Applicants may be contacted in order to provide further information about their proposal. The companies responsible for winning bids will be contacted until 26th March 2012.</p>
Further information	Additional information can be obtained by telephone, fax (see contacts in Section 1) or by electronic mail (geral@ecolub.pt). The "Subject" field must refer "Consultation for Final Destination EN: Used Oils SOGILUB 2012-2T REC".
